TECHNICAL SKILLS

Ruby
ASP.NET

Ruby on Rails
Git

JavaScript
SQL Server

Node.js
C#

jQuery
Visual Studio

React.js
HTML

Redux
CSS

SOFTWARE PROJECTS

Sports with Strangers · [github](#) · [live](#)

Sole Developer [Rails, PostgreSQL, ReactJS, Redux]

Full Stack Web Application for joining and hosting game-day events in your home city

- Built REST API to fetch JSON objects, carefully constructing response to maximize Redux efficiency
- Implements server-side validation to prevent cross-domain requests for user data

Pixelary · [github](#) · [live](#)

Sole Developer [JavaScript, jQuery]

Frontend Web Application to demo basic algorithms for image processing, in the form of pictionary

- Adapted image filtering algorithms for JavaScript, and utilized mutual recursion to animate image
- Handled multiple asynchronous event loops through careful use of callbacks and closures

CheffyPix · [github](#) · [demo](#)

Front End Developer [Java, XML, Android Studio]

Android Application for discovering new recipes and sharing favorite dishes

- Utilizes custom API Util methods and adapter/inflater classes from MVC to handle view logic
- Sends URI reference to API and parses JSON response to build Bitmap images

FilmSnubs · [github](#)

Sole Developer [C#, ASP.NET MVC, SQL Server]

Web Repository for under-appreciated movies with user reviews

- Utilizes code-first migrations to map view models and jQuery to organize data sets

EDUCATION & TRAINING

App Academy, San Francisco, CA

November 2016 - February 2017

Full Stack Web Development Course

- Implemented my own · [database object relational mapper](#) · [LRU cache with linked-list/hash map](#)

University of San Francisco, San Francisco, CA

2008 - 2013

Bachelor of Arts Design

- Curriculum Highlights: Programming in Python, Android Development, Web Design

PROFESSIONAL EXPERIENCE

Presentation Services Audio Visual, San Francisco, CA

2014 - 2016

Lead Audio Engineer

- Engineered audio for live events, optimizing equipment for venue's frequency response
- Provided IT assistance for large scale networking, ISP optimization, and wireless device connectivity

Freelancer, San Francisco, CA

2013 - 2015

Graphic & Web Design

- Aided in setup of Domain registration, DNS, CNAME, and File-Transfer-Protocol
- Provided conceptual sketches for brand inception, and mapped vector images based on drawings
